

Churches and Congregations

“Since we have been using One Call Now, it has proven to be a powerful way to inform our members of special events. It’s easy to use and allows you to contact your people about special prayer needs or deaths related to the church family. When we first started using it, the reaction from some of our folks was, ‘Wow that is neat!’”

DAVID B., PASTOR, ABUNDANT FAITH UPC

Effective communications play a big role in building a strong sense of community within your congregation, but keeping everyone informed and up-to-date takes a lot of time, staff and budget. **One Call Now** makes it easy for you to reach your congregants... and easy for them to be more active and engaged. Use it often to save time, reduce costs and ensure everyone gets the correct information.

A Simple Solution to Keep Your Congregation Informed

Churches and congregations vary greatly, but they also share many of the same issues, regardless of their size. Are you facing any of these common communication challenges?

- *Low attendance for events and activities*
- *Parishioners who commit, but fail to show up*
- *Broken prayer chains*
- *Calling systems with slow hardware dialers that take days to deliver your message*
- *Phone tree participants who change your message and cause confusion*
- *Parishioners who arrive after you've canceled due to inclement weather*
- *Messages not getting to all your congregants at the same time*
- *Office volunteers and staff spending hours on the phone trying to reach people*
- *Difficulties connecting with youth, getting a response and keeping them engaged*

It's fast, efficient and effective

WITH ONE CALL NOW:

- Send unlimited* voice, SMS text** and email messages, and post to Facebook and Twitter.
- Set up subgroups within your contact list for group-specific communications.
- Eliminate slow and costly hardware dialers, additional phone lines and equipment. Messages are sent instantly from One Call Now without using your phone lines or your computer system:
- No software to purchase
- No hardware to install
- No additional phone lines or equipment required
- No long-distance charges
- No charges for ring time or re-dials
- No support costs
- No contracts
- Adjust your plan anytime

*With unlimited plan

**SMS text messaging available in all 50 states

It's a snap to set up, easy to manage and simple to use

It's easy to set up your contact list and it's easy to keep it updated. There is no charge for support and we'll help you if you need it.

Sending messages is also fast and easy. Initiate your messages anytime from any phone or Internet-connected computer. Our simple menu guide you through the quick process. Your message is sent to everyone right away or you can choose to send it only to certain people.

Free mobile apps for the ultimate in convenience!
